BROWER'S

Lace Curtains

DRAPERIES AND UPHOLSTERING GOODS

Our specialty in this department is simple, refined patterns in French, English and Swiss Curtains, with a preference always toward hand made goods. A great amount of care and judgment has been exercised in selecting our showing of Draperies, etc., for this season and we are now reaping our reward in largely increased sales.

SPECIAL—We received a few days ago one of the handsomest Dining Suits that we have ever shown. It is of Oak in Gothic design, heavily and intricately hand carved, and is finished a Cathedral Gray. It is a perfect example of American supremacy in the art of furniture building.

Throat Coughs

A tickling in the throat; hoarseness at times; a deep breath irritates it;—these are features of a throat cough. They're very deceptive and a cough mixture won't cure them. You want something that will heal the inflamed membranes, enrich the blood and tone up the system.

Scott's Emulsion

is just such a remedy. It has wonderful healing and nourishing power. Removes the cause of the cough and the whole system is given new strength and vigor.

Sent for free sample.

WINCHESTER CLAIMS 12,000 POPULATION.

Wait Until Tom Deatherage Gets Through With Richmond.

A special from Winchester says: "The receipts of a city are regarded as a fair criterion by which to judge its growth. The total receipts for the last three years of the Winchester post office are as follows:

1903	\$20,501
1904	\$20,019
1905	\$14,626

This shows an increase of the receipts of 1905 over 1904 of \$451, and of 1906 over 1905 of \$1,614 or a gain of 16 per cent for the last year.

"In connection with this, and apropos of the Herald's statement yesterday about the population of Lexington, it is found by counting the houses and allowing six persons for each house, that the population of Winchester would be something over 12,000. The city's population last year was estimated at 11,000, and the population of the city here, and found about 2,000 houses then. Many new houses have been built which probably brings the number up to 2,100."

This rapid growth of our sister city is a powerful motive to the handling, up-to-date character of her business men, who, through their Commercial Club, have put Winchester in the very front rank of Kentucky's growing cities. It will interest our citizens here to know that our vigilant city assessor, Mr. G. W. T. Deatherage is engaged in taking a biennial census of Richmond, the result of which will be impatiently awaited.

For a mild, easy action of the bowels, a single dose of Doan's Regulator is enough. Treatment cures habitual constipation. 25 cents a box. Ask your druggist for them.

Of the twenty-three Presidents of the United States, sixteen more than two-thirds had but one given name, which shows that it is not necessary to give a whole lot of make him great.

Human Blood Marks.

A tale of horror was told by marks of human blood in the home of J. W. Williams, a well known merchant of Lexington, Ky. He writes: "Twenty years ago I had severe hemorrhages of the lungs, and was near death when I began taking Dr. King's New Discovery. It completely cured me, and I have remained well ever since." It cures Hemorrhages, Chronic Coughs, Settled Colds and Bronchitis, and is the only known cure for Weak Lungs. Every bottle guaranteed by Stockton & Hagan Drugists. 50c and \$1.00. Trial bottle free.

The more ignorant a man is, the less allowance he will make for the shortcomings of others.

A Lucky Postmistress

is Mrs. Alexander, of Mo., who has found Dr. King's New Discovery to be the best remedy she ever tried for keeping the Stomach, Liver and Bowels in perfect order. You'll agree with her if you try these painless purifiers that infuse new life. Guaranteed by Stockton & Hagan Drugists. Price 25c.

I have never known a man addicted to the excessive use of intoxicating liquors that did not have some kind of an excuse for it.

Will Interest Many.

Every person should know that good health is impossible if the kidneys are deranged. Foley's Kidney Cure will cure kidney and bladder disease in every form, and will build up and strengthen these organs so they will perform their functions properly, so danger of Bright's disease or diabetes if Foley's Kidney Cure is taken in time.

Sold by R. C. Stockton.

Some people have a faculty of looking wiser than they really are.

It is just as easy to be nice and clever as it is to be selfish and mean.

No Quarter.

The evils which always follow after indulgent biliousness or constipation will give no quarter. Better fight them to a finish with Dr. Caldwell's (Laxative) Syrup Pepsin. It is a weapon against these diseases, which will give you quick relief and permanent cure. Sold by Perry & Thomas at 50c and \$1.00. Money back if it fails.

Kindness is the silken cord that binds mankind together.

Some men merely select the lesser of two evils as sample.

Never judge a man by his looks; lots of fools look others like.

Stings itching instantly. Cures piles, eczema, salt rheum, tetter, itch, hives, herpes, scabies—Dun's Ointment. At any druggist.

FUTURE NOT BRIGHT.

FIRST PARLIAMENT OF RUSSIA WILL BE A FARCE.

The Revolutionary Programme Is Still the Paralysis of Administrative Machinery from Within.

St. Petersburg.—The uselessness of expecting that the meeting of Russia's first parliament on May 11 will in any way abate the internal struggle is now accepted by everyone. The fire of revolution is burning everywhere continuously, but it has not by a long way burned out or smoked out the government. Far distant, too, is the day when the army will make common cause with the revolutionaries.

The present slaughter of minor government employees in obedience to law orders of Count Witte and Minister of the Interior Durnovo is a salient feature. Thirteen postal telegraphers at Tshita who shared in the general strike in October have just been sentenced to death. The revolutionaries treat this and similar cases merely as a skirmish lost in war.

Against the existing system the revolutionary programme is still the paralysis of administrative machinery from within. Street fighting and other disorders are not part of their scheme. The leaders are not likely to call a general strike at present because the installation of the Duma as part of the fabric of government offers some hope of wrecking the whole system.

Dmitri Shipoff, the leader of the moderate conservatives, makes the following estimate of what the Duma will amount to when it meets. "The majority will be peasants, who will arrive quite unprepared for the mode of procedure. Many will not even understand the words used, which will be of the official kind and wholly strange to them. The peasants will maintain that the agrarian question is their paramount interest and will refuse to trust its solution to anyone outside of their own class. But it is just the agrarian question which is bound to meet from the beginning insurmountable difficulties which will serve the revolutionary programme."

Shipoff holds strongly that the double and triple system of election makes the people regard the whole procedure as a tremendously complicated and obstructive. He emphatically declares that the new council of state will serve in any sense the purpose of upper chambers and senates elsewhere. He maintains that the whole system is now as an enemy of public life. He is certain from long experience (he was chairman of the Moscow provincial zemstvo for many years) that the council of the empire and the Duma are foredoomed to a disastrous struggle, inasmuch as no decision of the Duma can be brought direct to the emperor's notice. The council, in its new form, not only diminishes the authority of the Duma but concurrently reduces the prerogative of the emperor.

The majority of those who have analyzed the constitution of the chambers agree with Shipoff that they have been so drafted under Count Witte's guidance as to strengthen the bureaucracy at the expense of both the crown and the people.

NATURE'S PACKING PLANT.

Salt Sea in Southern California Freezes, Salt Gathers and There It Is.

Washington.—The recent extreme cold weather in the southwestern part of the United States has produced one extremely curious result. The Salt Sea, which is produced by the over-

flow of the Colorado river into a depression in southern California, has been frozen over to a great depth. The Southern Pacific railroad, which has been greatly embarrassed by the flooding of its tracks occasioned by the rising of the water, has moved its tracks to the ice, and is now running over the surface.

The water of the lake being salt, it has, in freezing, deposited upon the surface, quantities of salt, which, by the action of the desert winds, has collected in windrows upon the ice. This has given rise to a new industry, or rather to the revival of an old industry. Thousands of cattle have been driven to this neighborhood from the great ranges to the north and south, and the business of slaughtering and meat packing is being carried on upon an enormous scale, the salt and ice for the purpose being right at hand. How long this will last is of course problematical.

Oldest Missourian.

Frederick Saugrain, the oldest native born person in the Louisiana purchase, celebrated the one hundredth anniversary of his birth a few days ago at his home in Sedalia, Mo. Mr. Saugrain is the son of Dr. Anton Francois Saugrain, the friend of Benjamin Franklin and the "pioneer scientist of the Mississippi valley." The centennial was born at the Saugrain home in St. Louis 100 years ago.

Ice from Mont Blanc Glacier.

A company has been formed to cut into the Mont Blanc glacier in Switzerland at a height of 4,000 feet. The ice is mined with dynamite and the blocks are cut into cubes and sent into the valley by a narrow gauge railway. There they are cleaned and then sent by train to southern France.

PICTURESQUE ROCK GONE.

Famous Old Landmark at Santa Monica Crumbles During Rainstorm.

Santa Monica, Cal.—After having withstood the storms for generations, picturesque Arch rock, one of the historic landmarks of the beach above Port Los Angeles, has finally succumbed to the action of the elements. The rainstorm of Saturday night proved its undoing. Sunday morning it was discovered that the natural arch that spanned the two columns through which the country road passed had crumbled and fallen, blocking traffic.

Arch rock was as old as the hills when the mission padres who preceded Father Junipero Serra to this bay first wended their way up the coast in search for an easy route to the Spanish missions situated farther north. It had no historic significance other than its natural beauty and romantic surroundings. It was a familiar landmark to all tourists, and tally-ho parties to this spot were included in all itineraries of the sightseers.

Indians and Mexicans who lived in this section early in the century have handed down traditions of generations received from their fathers and grandfathers, and according to their stories the rock was formerly much larger and when the sea was at its height the waters rushing through the cave would roar and echo as the mad breakers would dash against the sides of the tunnel. Year by year it was wasted away. The storm of last March hastened the disintegration, and the arch was further weakened a year ago when the road builders tore away the loose stones that threatened to fall upon passersby.

Nervous School Children.

Statistics gathered by various School Boards show that a large percentage of school children suffer from different forms of nervousness, mild or exaggerated. Some showed a tendency to melancholy, others mental depression and many the nervous twitches or mild chills, or St. Vitus' dance. Most of these troubles can be overcome by proper food, sufficient sleep and Dr. Caldwell's (Laxative) Syrup Pepsin. It is a universal children's medicine, because, if good food is eaten, it insures that the food is properly digested and lodges in the stomach and nerve poisons properly thrown out. It is pleasant to take and safe and sure in results. Try it. Sold by Perry & Thomas at 50c and \$1.00. Money back if it fails.

Love's all the sweeter when flavored with just a little discord.

Pirating Foley's Honey and Tar.

Foley & Co., Chicago, originated Honey and Tar for a throat and lung remedy, and a account of the great merit and popularity of Foley's Honey and Tar many imitations are offered for the genuine. Ask for Foley's Honey and Tar and refuse any substitute offered as no other preparation will give the same satisfaction. It is mildly laxative. It contains no opiates and is safe for children and delicate persons. Sold by R. C. Stockton.

Every dog has his day and the watch dog also has his night.

Miserable Conditions.

Of body and mind, always result from a torpid liver, which leads to bile poisons being absorbed into the blood, and poisoning all the nerves and tissues. The physical state, some of the symptoms of which are headache, bitter taste, nausea, lack of appetite, yellow complexion, constipation, etc., can be quickly cured by taking Dr. Caldwell's (Laxative) Syrup Pepsin. It relieves to strain on your liver, relieves the righted bowels, purifies the blood, strengthens the stomach, and makes it as clean as a whistle. The result is perfect health, and freedom from pain and discomfort. Try it. Sold by Perry & Thomas at 50c and \$1.00. Money back if it fails.

PIPE COLD AIR FROM WELLS

Cheap and Effective House Cooling System Put in Use in Montana Town.

Helena, Mont.—The town of Thompson Falls, in Missoula county, has a strange system of cold storage. In the hottest days in summer it is possible to keep living rooms at a temperature of 55 degrees, and butter, eggs and meat are kept cool and fresh without the least trouble. The best part of the cold storage system is that it costs absolutely nothing after the plant has been installed.

Thompson Falls has a large number of wells that furnish cold, fresh air, which rushes upward all summer long. The wells are dug for water, but the supply of cold air is fully as important. The wells of Thompson Falls are a little more than 60 feet in depth. The water veins are found in a gravel formation and are doubtless fed by the mountain snows at some distant place. The gravel is porous enough to admit of a freely moving current of air, which during the summer time rushes upward in currents strong enough to snuff out a match held over the wells.

The utility of the cold air currents was first observed in 1884, when the Thompson Falls Mercantile company used the cool air to keep butter, eggs and meat in large quantities. The air can be piped in summer to rooms of houses. The wells are covered over tightly at the top, and large pipes tap the current a few feet below the surface of the ground. These pipes conduct the air to different rooms in nearby buildings.

For cold storage plants, a house is built above the well and the air rushes upward continuously, keeping the temperature at an unvarying point.

ENGLAND'S VAST INSURANCE

Home Companies Close Year with Balances That Are Tremendous.

London.—The people of the British Islands are now insured by 96 companies to the enormous total of \$241,879,726 (\$4,705,388,630), and this does not include the figures of the colonial and foreign companies. The blue book which annually appears on this subject, has just been published.

Premiums were paid last year to the amount of \$25,544,141 (\$178,220,765). The companies' claims came to \$22,122,435 (\$110,612,175), there being an increase under the latter head of \$1,136,742 (\$5,683,710).

The companies closed the year with balances amounting in the aggregate to \$317,088,943 (\$1,555,444,715). Of this sum they now have almost \$36,600,000 (\$300,000,000) invested in land, house property and ground rents.
